ANALYSIS IN KG
REMARKS
Good yield and Dark green fruit tmv Tolrance
Early variety, Good yield and good tolrance
Dark green fruit, low price, good fruit quality and medium tolrance
ELCV tolrance,Attractive Dark green,Easy Picking,High Yield,Good branching.
Good branching, good fruit quality and low internodal distance
Dark green fruit,crop longvility,late harvesting ,vine vigur very good
Vine vigur good,virus disease low,fruit dark green,Late harvest
Late harvesting ,Dark green fruit,Crop longivity,Virus Tolrance
Fruit size medium,vine vigur good,yield low
Early hybrid,High yield,Medium fruit,Short interval picking
Crop Longvility very good,high yield,virus tolranse
Heat set, medium green fruit,
Early hybrid,shiny fruting,parrot green fruit
Early hybrid,High yield ,vine viggur very good,Attractive parrot green fruit
Gsb Tolrance, High yield
Spine fruit, 400,500gm,Black color,Early valgar
Good fruit size,spine fruting ,high yield,shiny fruting
High yield,5,6 fruit fruit in bunch,good test,150 to 200 gm fruit weight
High yield,Excillent fruit shining,
Fruit colour is attractive and high yeilding hybrid
Dark green fruit,length 16-18 cm,Deshi segment
Dark green fruit,freuit size 16-18 cm,Deshi segment,highfruit load
High toughfness,high pungency,high fruit load, length 14 to 15cm (Dual Purpose)
Dark green fruit,length 18-20 cm, Pencil segment
Deshi segment,mandi price good,
Dark Freen (Low Price Market)
Dark green fruit,length 16-18 cm,Deshi segment
Good longivity , attractive fruit colour and good virus tolrance, high yielding, good transportation
Medium tolrance and low price hybrid,Dol wala
High yelding , fruit quality is good , good transportation quality,good tolrance
Strong & vigorous plant, attractive green fruit and long fruit size and low virus tolrance
Highly vigorous , dark green fruit, medium fruit size
Yield low as a comptitor,Green Color,
Virus tolrance,high yield,crop longvility,early hybrid.

Green fruit, lowest market price
Attractive dark green fruit, low tolerance
Green fruit, good crop longevity, low virus pressure
Dark green fruit, good crop longevity, high yielding
Excellent fruit firmness, uniform & attractive deep red fruit
Attractive deep red & glossy, good heat set & high yield
High toughness, high fruiting, Good fruit size
deep red colour, good heat set, semi determinate type
High yielding branchless variety, long and green podded variety
Good tolerance and dark green fruit and high yielding
Attractive light green colour, fruit shape- straight, erect, medium long
Dark green pods, medium tolerance
Dark green fruit and good crop longevity (Price Low)
High yielding hybrid and low price hybrid
Dark green fruit and good crop longevity and plant vigour, pods length-12-15 cm
Plant type- dwarf & bush, early flowering start & good yield
Plant strong & vigorous & attractive green fruits

ANALYSIS IN KG	
REMARKS	
Short internode, high yield, tolerance hy	
Good secondary branching with tolerance	
First picking high yield, good longevity.	
Early fruiting, Low management crop.	
White colour fruits
