Subject: Resignation letter from the post of "Assistant Scientist Biotechnology"

Dear Sir

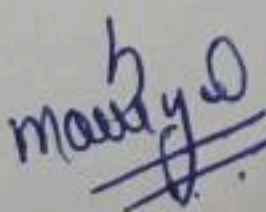

I am writing to formally notify you of my resignation from "Assistant Scientist Biotechnology" at VNR Seeds Pvt. Ltd., effective from 18th march, 2024. The decision to resign was not an easy one, I have thoroughly enjoyed working here and have been deeply committed to the company's mission and growth. Unfortunately, family circumstances at this time requires my full attention, making it difficult for me to maintain the level of commitment and dedication this role deserved. Recently, my father has undergone "coronary artery bypass surgery" which requires 3 months recovery period and they were planning to move to Bengaluru, Karnataka. As a mother of two kids (1.9 years, 5 years) and husband working in Vadodara, it will be difficult for me to handle kids alone in Raipur/ Bhilai without my parents or husband at current state.

I am incredibly grateful for the opportunities given during my tenure at VNR Seeds Pvt. Ltd. The experience, knowledge and camaraderie I have gained here are invaluable and will always hold a special place in my heart. I appreciate the support and understanding you and the team have shown me, especially during this transitional period.

I pledge to do everything in my power to ensure a seamless transition, which includes assisting in finding a replacement or training a team member to take over my responsibilities.

Thank you once again for the opportunity to be a part of VNR Seeds Pvt. Ltd. I hope to stay in touch, and please understand that this decision was made with the best interests of my family in mind. If the situation will divert in favor of me, I would like to cancel my resignation and resume my duty. Till now, kindly accept my resignation and I request you wave off the long notice period so that I can give my full attention to my family in this crucial period as early as possible.

Thanks and Regards

18/3/2024
